**Technical Characteristics of the CICARE *SVH-3*  
HELICOPTER FLIGHT SIMULATOR & TRAINER**

Characteristics	Seats	1
Dimensions	Height	2,48m.
	Width	3,40m.
Rotor diam./blades	Main	6,10m./2 blades
	Tail	1.03m./2 blades
Engine	Mark	Rotax 912
	Type	4 cil. 4 Strokes. Air & Liquid cooled
	HP. Max. Cont.	80
Weight	Total	460 Kg.
	Fuel	30 Kg.
Autonomy		2.5 Hrs.
Fuel Type	Gasoline	95 octane

## Basic Components of the SIMULATOR/TRAINER

- 1) Airframe made of SAE 4130 steel tubes.
- 2) Skids made of SAE 4130 steel tubes.
- 3) Main gearbox with commands system.
- 4) Main rotor.
- 5) Main rotor blades made of composite.
- 6) Tail rotor gearbox.
- 7) Tail rotor blades made of composite.
- 8) Vertical stabilizer made of composite.
- 9) Tail boom with shaft and tail rotor control system.
- 10) Slipping platform.
- 11) Support system with pneumatic cylinders.
- 12) Cabin made of composite.
- 13) Compass or turn indicator.
- 14) Hour-meter.
- 15) Standard instrument panel.
  - a) *Engine water and oil temperature indicator.*
  - b) *Engine oil pressure.*
  - c) *Main gear box temperature indicator.*
  - d) *Engine-rotor dual tachometer.*
  - e) *Fuel level.*
- 16) Polyurethane paint.
- 17) Protection system of Minimum pressure.
- 18) Protection system of engine high temperature.
- 19) Instructor's electronic control.
  - a) *Engine stop.*
  - b) *Engine failure.*
  - c) *Wind simulator.*
  - d) *Protection system of high RPM.*
  - e) *Three independent lights of simulated alarm.*
  - f) *RPM simulator.*
- 20) Engine quick stop.
- 21) Height limiter switch.
- 22) Fuel tank made of stainless steel.
- 23) Collective pitch control (dampener).
- 24) Light of maximum height proximity (amber).
- 25) Light of maximum height (red).
- 26) Navigation and anti-collision lights.
- 27) Signal light for the instructor.
- 28) Instruction manual.
- 29) Maintenance manual.
- 30) Parts catalog.
- 31) Transport wheels.
- 32) Protective boots for cabin, blade tips and rotors.
